_____

Motivated and skilled software engineer with experience in full-stack development, Cyber security, graphic design, and project management. Proficient in Django, JavaScript, React JS, Python, MySQL, HTML5, CSS3, Git, Linux, Figma, and various Adobe software. Seeking a challenging position in software engineering where I can utilize my technical skills and creativity to develop innovative solutions.

Technologies and Languages

- Django, Java, JavaScript, React Js, Python, MySQL, HTML5, CSS3
- Git, Linux, Kali Linux, Figma, Burp Suit, Wireshark, oracle VM VirtualBox, Boostrapt, Adobe Photoshop, Adobe illustrator, Adobe Premiere Pro, Adobe Affter Effects

EXPERIENCE

Full-Stack Developer | Opportunity Club / AUIS: Dec 2022 – Nov 2023

- Utilized Figma to design a visually appealing and cohesive brand identity for a club idea, and subsequently implemented it using HTML5, CSS3, and Javascript to construct a contemporary, responsive user interface that accommodates varying screen sizes.
- Employed Django and MySQL to establish a database capable of storing, displaying, and sorting data based on user search queries and categories.
- Developed a dynamic admin page utilizing the Django admin panel to facilitate easy viewing and modification of the database.
- Demonstrated full project management proficiency, overseeing all project-related technologies, and remaining adaptable to incorporate new updates to the project in a manner that optimizes usability for users.

Cyber Security | intern / Sayara

Oct 2023 – Dec 2023

- Cyber security Awareness Training: Developed and conducted comprehensive cyber security awareness training for all employees at Sayara, an e-commerce platform specializing in selling car parts.
- Responsibility for Cyber security: Held a pivotal role in bolstering the cyber security posture of Sayara, taking responsibility for safeguarding both the company and its e-commerce platform.
- Security Documentation: Developed and maintained comprehensive security documentation, including policies, procedures, and guidelines.
- Full Stack Development: Played a key role in enhancing Sayara's online platform by contributing to full-stack development efforts. This included creating secure features and functionalities to protect customer data and privacy.

Graphic Design | intern / AUIS

Oct 2022 – Dec 2022

- Completed an internship in Graphic Design at the Center for Gender Development, where I was tasked with enhancing video templates using Adobe After Effects.

PROJECTS

Back-End / E-Commerce website
- Designed and developed a vendor account system using Django and MySQL, enabling the efficient storage and categorization of vendor data.
- Utilized HTML and CSS to create a streamlined interface within the vendor's admin panel, with Bootstrap classes integrated for enhanced design.
- Implemented key features such as bid control, resource allocation, and negotiation to streamline vendor interactions and improve efficiency.

Back-End / Networking (social media) website
- Developed a user profile system using Django, enabling users to create, post, like, and comment on each other's content with ease.
- Leveraged the Django framework to build a scalable account management system that supports account following and enhances user engagement.
- Utilized core web technologies such as HTML, CSS, and Bootstrap classes to design a sleek and intuitive user interface for presenting the account database and ensuring a seamless user experience.

Front-End / Mail website
- Developed a dynamic webpage using HTML, CSS, and JavaScript, which enabled users to add and modify emails.
- Employed basic Django code to manage user accounts and facilitate interaction between various programming languages utilized in the project.

Volunteering

- Orientation Tour Guide, American University of Iraq, Sulaimani, October 25, 2022.
- Head of Design Department, International Trainees Conference, Duhok (Remote), June 14, 2022.
- Graphic Designer, Point Conference, Baghdad, July 12, 2022.
- Design and Marketing Department Manager, Climate Blessing (Remote), August 21, 2022.
- Design and Logistic Volunteered at TEDx Ashti, Sulaimani, February 14, 2023.
- Embracing Guests: The Inaugural Ceremony at Sulimani Festival, Sulaimani - September 11, 2023."

Certificates

- Diploma in Cyber Security from Alison
- Certificate from University of Helsinki in the field of artificial intelligence
- Four certificates from LinkedIn in the field of cyber security
- Four (HP) Business Certifications
- Certificate from Google of fundamentals of digital marketing
- CS50 Web Development with Python and Javascript

EDUCATION

AMERICAN UNIVERSITY OF IRAQ, SULIMANI
Bachelor of Science in Software Engineering / 2021-Current
